In Short, student's in Pakistan don't have freedom of speech freedom of profession. There is no innovation, students have a limited school of thoughts he is not able to think beyond his syllabus books. and we all these shortcomings. we dream to see Pakistan at its zenith

Introduction

Lab-on-Chip is an amalgamation of various examinations such as biochemical/biomedical operations, DNA sequencing onto a single chip-Which otherwise would have been performed in laboratory taking sufficient amount of time. LOC devices are a well-known microfluidic methodology that moves tiny amounts of fluid through IC-type devices.

Slides Outline

1. IEEEDAY

2. Nitty Gritty 3

3. IEE UET has taken 'things should be in form' quite seriously- A GOOGLE FORM. Orientation? Google form. How did it go? Google form. Inductions? Make a Google form. This time get a pack of 12 color pencils and turn it into a rainbow. Oh we've got a webinar too? That means another Google form. One for registration and another one for checking who amongst you are attending. Thought we'd let you off with only one Google Form you weaklings? No we're borderline obsessed. There was this one time we did not use Google forms tho. I'll take guesses your guesses why. After all this we decided to make one for you too. Fill out this Google form immediately.

Student

One who is supposed to learn new things and unveil new horizons of nature is lost somewhere beyond the basic purpose of education

Sumama Zaeem 11:48 AM
please ask in comment box

Haris Nabeel 11:49 AM
in here you mean?

Sumama Zaeem 11:49 AM
yes

Muhammad Mohsin 11:49 AM
You can ask question in the comment box without hesitation

Haris Nabeel 11:49 AM
its really been a while since we submitted "le GOOGLE FORM" for joining IEEE but still no response

any idea when??

Sumama Zaeem 11:50 AM
you will be updated over the email
